

## Babolat Pure Aero \$219

The Pure Aero represents a significant improvement over the previous generation of Aero rackets: a new aerodynamic frame enables the racket head to move more quickly, and thereby increases ball speed, while new FSI Spin Technology provides enhanced lift.

This racket responds superbly to players who seek power and optimal spin, like Rafael Nadal and Jo-Wilfried Tsonga..

## Pure Aero Team \$199

**THE PERFECT TRADE-OFF BETWEEN POWER, SPIN, AND MANEUVERABILITY.**

The lighter Pure Aero Team (285 g) offers even better handling than the standard Pure Aero version. The balance-weight pairing provides easier grip and control. Also equipped with Aeromodular<sup>2</sup> and FSI Spin technologies, this racket delivers both power and spin. Ideal for junior players, as well as intermediate and expert players looking for a lighter and easier-to-handle alternative to the standard Pure Aero.

**Aero Pro Drive  
French Open Series -\$199**

**DISCOVER THE FULL RANGE OF  
BABOLAT-FRENCH OPEN  
RACKETS, COMBINING TOP  
PERFORMANCE AND EXCLUSIVE  
DESIGN**

The Aeropro Drive is a great fit for a very wide array of players. This version is equipped with the new Cortex Active Technology at the top of the handle to provide an even better solid feel thanks to Cortex material and a new handle construction. The Aero shaft is designed for faster swing speeds. The result is more power and spin.

**Pure Aero LITE \$195**

**LIGHTNESS AND  
MANEUVERABILITY FOR  
EASIER SPIN.**

Equipped with the same technologies as the Pure Aero, the Pure Aero Lite is perfectly suited to junior players switching over to an adult racket or intermediate-level adult players looking for lightness, maneuverability and spin

## Babolat Pure Drive Lite - \$189

### **PLAY WITH POWER. MASTER YOUR GAME.**

The all-new 2015 Babolat Pure Drive Lite has all of the same great technology, with a much lighter weight. A new construction featuring Frame String Interaction Technology highlights this year's newest Babolat models. Thanks to the ball impact locations mapped from 2012-2013 on the Babolat Pure Drive Play, Babolat has identified an impact zone higher than the traditional center of the racquet. With an open string pattern and decreased weight, power and spin capabilities are definitely there. The Cortex System optimizes the overall feel for the ball and gives every player the comfort level they want and need. Babolat Woofer technology is also in place to enhance control and sensation. Evo Beam Technology makes its way to the Pure Drive Line for increased power through the use of different frame thicknesses. For a player looking for the same punch as a Pure Drive without the weight, the 2015 Babolat Pure Drive Lite is an excellent choice.

## Pure Drive Wimbledon - \$169

Well suited for competitive players in search of the perfect balance between power and control. This legendary racquet no longer needs any introduction.

### FEATURES

- Balance Point 320mm
- Length: 685mm/27"
- Flexibility: 72ra

## **Babolat Drive Max 110 - \$199**

**The Drive Max 110 offers optimal comfort and maneuverability. Power combines with comfort in this impressive racquet and great option for players looking to add some power to their game.**

## **Babolat Pure Strike 16 x 19 \$169**

**Ideal for intermediate and advanced players, the Babolat Pure Strike 16x19 offers a great balance between speed and stability. At just over 11 ounces and boasting a swingweight of 320 (RDC), this modern player's racquet not only has enough mobility for creating effective pace and spin, but it also feels quite solid for its sub 12 ounce weight. The stability comes in part from Babolat's new Stabilizer Technology which utilizes varying beam shapes and thicknesses to reduce torque on impact. From the baseline this stick is comfortably crisp and delivers enough pace and spin for those who like to dictate action. It's also solid enough for players who like to take the ball early and redirect incoming pace. At net, this one moves into position quickly and provides a comfortable platform for executing controlled volleys. On serves the speed, pop and precision are a lethal combination.**

## **Why purchase your racquet from us instead of on line?**

We have knowledgeable staff that knows racquets. We will guide you with racquet options based on the style of your tennis game. In addition, we will work with you in selecting the appropriate strings for your new racquet. Whether you're looking for spin, power or feel, our stringers on staff will assist you with the right combination of strings.

With your racquet purchase, we include a \$34 string value for your first stringing. Any price in excess of \$34 would be an extra charge.

If your racquet is defective in any way or the frame cracks prematurely due to defects in the racquet we will return the racquet to Head. You can use a demo free of charge until we receive a resolution notification form Head. If they deem replacement is appropriate we will navigate the total return process on your behalf.
