

HEAD Instinct Power \$169

The PWR INSTINCT is the ultimate lightweight, which flawlessly blends maneuverability and power with ultimate vibration dampening and comfort. It also features Graphene XT, the next generation of the groundbreaking Graphene technology, which enhances the energy transfer and adds more speed to every stroke. Made for the intermediate club player, the PWR SPEED's design story combines the characteristic color way of the INSTINCT silo with a sophisticated and elegant design story.

HEAD Instinct MP \$179

Recommended by Maria Sharapova and Tomas Berdych, this one is as fashionable as it is wild. Due to the innovative Graphene XT Technology, which shifts the weight to where you need it most for a faster game, the INSTINCT MP combines increased power and superior handling into a very comfortable package. It might be the INSTINCT series' most powerful weapon, but its greatest achievement is how comfortable it is: Featuring a softer feel, the racquet allows fewer vibrations than ever before no matter how heated your rallies might get.

HEAD Speed MP A \$199

One letter, big difference: The SPEED MP A offers the versatile characteristics of the SPEED MP including the Graphene XT technology for a faster game. But in addition, it gives you the Adaptive String Pattern (ASP), which allows you to exchange the grommet strips and choose between a 16/19 and a 16/16 string pattern for even more spin adaptability. Rounded out with the series' modern design and eye-catching neon colors, the MP A is the weapon of choice for the tournament player who is looking for added adaptiveness..

HEAD Instinct S \$179

Your game is about power, your look is fashionable, and your racquet your perfect match. The INSTINCT S, the INSTINCT MP's little brother, is the series' lighter tour version for the advanced club player who needs a mixture of enhanced maneuverability, lots of power and superior comfort. The innovative Graphene XT shifts the weight to where you need it most for a faster game, while the racquet dampens the vibrations for more comfort during every shot.

HEAD Extreme MP A \$199

The EXTREME racquet series flawlessly combines spin and power into a rock solid package and it comes to full life in the MP version.

With its rounder shape and aggressive ASP technology, with the options of a 16/16 or 16/19 string pattern, the racquet is the ultimate spin machine. Its special combination of weight and balance allows this racquet to be extremely quick in the air while still giving you a rock solid feeling. Add the innovative Graphene XT technology, which puts the weight right where you need it for a faster game and an eye-catching look of flashy yellow colors to the mix and you will spin your opponent's head around in no time.

HEAD Speed Pro \$199

All of the speed now comes with all of the control. Made for the advanced tournament player, the SPEED PRO combines an iconic asymmetric look with the latest technologies into one very speedy package. You have optimized control and a perfect feel for your next bold shot thanks to the 18/20 string pattern, while the groundbreaking Graphene XT technology inside shifts the weight to where you need it most for a faster game. So, if it is control you want and speed you need, this one is your perfect partner.

HEAD Extreme Lite \$149

It might be lighter and easier to play than its big brothers, but the EXTREME LITE has all the extra benefits that make the EXTREME racquet series so unique. Perfect for a wide range of club players, its rounder shape is made for adding an extra spin to your stroke while the innovative Graphene XT technology shifts the weight to where you need it most for perfect control and a faster game. The EXTREME LITE also scores in the design department with flashy yellow color accents.

Why purchase your racquet from us instead of on line?

We have knowledgeable staff that knows racquets. We will guide you with racquet options based on the style of your tennis game. In addition, we will work with you in selecting the appropriate strings for your new racquet. Whether you're looking for spin, power or feel, or stringers on staff will assist you with the right combination of strings.

With your racquet purchase, we include a \$34 string value for your first stringing. Any price in excess of \$34 would be an extra charge.

If your racquet is defective in any way or the frame cracks prematurely due to defects in the racquet we will return the racquet to Head. You can use a demo free of charge until we receive a resolution notification form Head. If they deem replacement is appropriate we will navigate the total return process on your behalf.
